ASK DR. GAYLE

WHAT ATTRACTED YOU TO THE COSMETIC FIELD?

My progression from a reconstructive focus to one centered on cosmetic plastic surgery was a natural evolution. My comprehensive work with reconstruction patients has enriched my understanding of the human body, expanding my surgical capabilities. This realizes itself as beautiful cosmetic surgical outcomes.

WHAT DOES A CONSULTATION WITH YOU ENTAIL?

I get to know patients, learning about their likes, their families, their objectives and their cosmetic ideals, as well as their reasons for coming to see me. I spend as much time as needed with a patient to determine the best course of action.

HOW WOULD YOU BEST SUMMARIZE YOUR PHILOSOPHY?

Everyone here is devoted to providing compassionate, high-end service and creating a nurturing environment. We do everything we can to make the experience as pleasant as possible, delivering results that redefine how patients view themselves.

Scrupulous and meticulous

To ensure his patients receive what he refers to as “the best possible care, with the highest regard for safety and aesthetic excellence,” Dr. Gayle works with a group of board-certified anesthesiologists and engages in comprehensive pre-surgical planning. “All of my operations are firmly established before ever stepping foot in the operating room, which enables me to execute the patient’s vision clearly and efficiently,” he says. Prior to surgery, all of his patients receive a packet of information about their particular surgery and written instructions for post-surgical care. “All post-surgical patients receive follow-up calls and can reach me anytime. Enlightening patients helps me to further involve them in the experience, partnering with them to achieve gorgeous aesthetic results—together, as a team.”

REVISION SURGERY

WHAT CAN I DO IF I'M NOT HAPPY WITH RESULTS FROM A PREVIOUS PROCEDURE I HAD PERFORMED ELSEWHERE?

Revision plastic surgery is a very common request here in my office, unfortunately. I think it's important to take the time prior to surgery to properly gauge my patients' goals, as a means to ensure client satisfaction the first time around. With that said, should you be unhappy with your current results, I can perform revision surgery, correcting what you didn't like from your first surgical procedure.

“cosmetic surgery can empower you with confidence”

CALLING UPON 20 YEARS OF EXPERIENCE AND KNOWLEDGE, GAINED FROM THOUSANDS OF PROCEDURES PERFORMED, DR. LLOYD B. GAYLE PARLAYS HIS ACCUMULATED WISDOM, SURGICAL KNOW-HOW AND IN-DEPTH APPRECIATION FOR THE HUMAN FORM INTO REFINED COSMETIC OUTCOMES THAT REFLECT HIS BACKGROUND IN MICRO- AND RECONSTRUCTIVE PLASTIC SURGERY.
